

Scramble Nets

Side 1

- The Scramble net is simply fixed to the deck or rail to enable deployment within seconds and can be easily rolled up for stowage
- A Strop and/or Hauling lines are pulled to form a non-collapsible scoop and the casualty is guided into the cradle
- A co-ordinated & methodical lift takes place & the casualty is retrieved by rolling onto the deck in the medically preferred horizontal position
- The easily accessible foot and handhold make climbing easy for the man overboard
- Large numbers of passengers and crew may simultaneously disembark in the event of an emergency

Net remains rigid during climb

Casualties cradled in horizontal position are delivered to the deck

All Jason's Cradle® units carry our manufacturer warranty of 3 years excluding clips, strops, hauling lines, stowage bags and other additional fittings that carry the usual 1 year manufacturer's warranty.

• Casualty Recovery • Diver Support • Boarding Ladder • Body Recovery

The Jason's Cradle® Scramble Nets are available in 6 widths from 1240mm to 2100mm and can be supplied in most lengths from 2290mm upwards
