

## SERVICING GUIDELINES

Jason's Cradle® is SOLAS approved and guaranteed against manufacturing defect for three years, excluding clips, strops, hauling lines, stowage bags and other additional fittings that carry the usual 1 year manufacturer's warranty. Once the product is older than 3 years, it is important that it is serviced by Land and Marine's authorised service centres in order to maintain its high quality standards. The unit should then be serviced by an ASC at three year intervals. When the equipment reaches 12 years in service it is then recommended that it be replaced. If it is serviced, modified or altered in any way by the owner/operator or another non-approved body, Land and Marine disclaim all and any liability for any failure of the product to operate correctly or other problems or defects with the product except for liability which cannot be excluded by law.

**Note:** the above recommendations for service intervals of three years replace the previous recommendation of annual service intervals.
